Christmas Island is one of nature's most impressive feats, an island full of natural wonders: from the unique **annual red crab migration** to **rare and unusual birds** and **glorious deserted beaches** where the only footprints in the sand are those made by **nesting turtles**. With so many endemic species, the island is often referred to as the **Galapagos of the Indian Ocean**.

Yet it also displays a curious amalgam of cultures, history and industry, emerging as a place where all these elements create a truly unusual travel experience.

Christmas Island also boasts some of the **best scuba diving experiences** in Australia. Our scuba diving trips boast endless kilometres of **spectacular wall diving**, **untouched corals**, **hundreds of species of tropical fish**, **dolphins**, **whalesharks**, **warm clear water**, the opportunity to see magnificent marine life - what more could you expect from the ultimate scuba diving trip and experience?
